SUBJECT INDEX

HEARING

NATURE OF HEARING AND ITS DISORDERS

Normal Auditory Systems

Binaural cues and consonant perception in reverberation and noise. Helfer, K.S. April 1994, 429–438
The effect of noise spectrum on speech recognition performance-intensity functions. Studebaker, G.A., Taylor, R., & Sherbecoe, R.L. April 1994, 439–448
Psychometric functions for children's detection of tones in noise. Allen, P., & Wightman, F. February 1994, 205–215

Auditory and Other Otic Pathologies

Effect of otitis media with effusion on comodulation masking release in children. Hall, J.W., & Grose, J.H. December 1994, 1441–1449
Factors associated with individual differences in clinical measures of speech recognition among the elderly. Humes, L.E., Watson, B.U., Christensen, L.A., Cokely, G.G., Halling, D.C., & Lee, L. April 1994, 465–474

Hearing Loss and Deafness

Age effects on measures of auditory duration discrimination. Fitzgibbons, P.J., & Gordon-Salant, S. June 1994, 662–670
Early vocal development in tactually aided children with severe-profound hearing loss. Steffens, M.L., Eilers, R.E., Fishman, L., Oller, D.K., & Urbano, R.C. June 1994, 700–711
Effect of otitis media with effusion on comodulation masking release in children. Hall, J.W., & Grose, J.H. December 1994, 1441–1449
Factors associated with individual differences in clinical measures of speech recognition among the elderly. Humes, L.E., Watson, B.U., Christensen, L.A., Cokely, G.G., Halling, D.C., & Lee, L. April 1994, 465–474
An investigation of temporary threshold shift caused by hearing aid use. Macrae, J.H. February 1994, 227–237
An investigation of vowel organization in speakers with severe and profound hearing loss. McCaffrey, H.A., & Sussman, H.M. August 1994, 938–951
Masking of speech in young and elderly listeners with hearing loss. Souza, P.E., & Turner, C.W. June 1994, 655–661
Modulation Detection Interference (MDI) in listeners with cochlear hearing loss. Grose, J.H., & Hall, J.W. III. June 1994, 680–686
Perception of coarticulatory cues in the speech of children with profound hearing loss and children with normal hearing. Waldstein, R.S., & Baum, S.R. August 1994, 952–959
The phonological abilities of Cantonese-speaking children with hearing loss. Dodd, B.J., & So, L.K. June 1994, 671–679
Prediction of asymptotic threshold shift caused by hearing aid use. Macrae, J.H. December 1994, 1450–1458

Effects of Noise and Issues in Hearing Conservation

An investigation of temporary threshold shift caused by hearing aid use. Macrae, J.H. February 1994, 227–237
Prediction of asymptotic threshold shift caused by hearing aid use. Macrae, J.H. December 1994, 1450–1458

ASSESSMENT OF HEARING

Psychoacoustics

Age effects on measures of auditory duration discrimination. Fitzgibbons, P.J., & Gordon-Salant, S. June 1994, 662–670
Effect of otitis media with effusion on comodulation masking release in children. Hall, J.W., & Grose, J.H. December 1994, 1441–1449
Factors associated with individual differences in clinical measures of speech recognition among the elderly. Humes, L.E., Watson, B.U., Christensen, L.A., Cokely, G.G., Halling, D.C., & Lee, L. April 1994, 465–474
Masking level differences for tones and speech in elderly listeners with relatively normal audiograms. Grose, J.H., Poth, E.A., & Peters, R.W. April 1994, 422–428
Modulation Detection Interference (MDI) in listeners with cochlear hearing loss. Grose, J.H., & Hall, J.W. III. June 1994, 680–686
Psychometric functions for children's detection of tones in noise. Allen, P., & Wightman, F. February 1994, 205–215

Specific Diagnostic Techniques and Approaches

Behavorial

Psychometric functions for children's detection of tones in noise. Allen, P., & Wightman, F. February 1994, 205–215

Electrophysiologic
Effect of high-pass filtering on the neonatal auditory brainstem response to air- and bone-conducted clicks. Stuart, A., & Yang, E.Y. April 1994, 475–479

Pediatric
Psychometric functions for children's detection of tones in noise. Allen, P., & Wightman, F. February 1994, 205–215

Speech
Binaural cues and consonant perception in reverberation and noise. Helfer, K.S. April 1994, 429–438
The effect of noise spectrum on speech recognition performance-intensity functions. Studebaker, G.A., Taylor, R., & Sherbecoe, R.L. April 1994, 439–448
Effects of phonetic context on audio-visual intelligibility of French. Benoit, C., Mohamadi, T., & Kandel, S. October 1994, 1195–1203
The phonological abilities of Cantonese-speaking children with hearing loss. Dodd, B.J., & So, L.K. June 1994, 671–679

Masking
The effect of noise spectrum on speech recognition performance-intensity functions. Studebaker, G.A., Taylor, R., & Sherbecoe, R.L. April 1994, 439–448

INTERVENTION

Habilitation, Rehabilitation, and Education
Comparing abilities of children with profound hearing impairments to learn consonants using electropalatography or traditional aural-oral techniques. Dagenais, P.A., Critz-Crosby, P., Fletcher, S.G., & McCutcheon, M.J. June 1994, 687–699
An investigation of vowel organization in speakers with severe and profound hearing loss. McCaffrey, H.A., & Sussman, H.M. August 1994, 938–951
Oral communication skills of children who are hard of hearing. Elfenbein, J.L., Hardin-Jones, M.A., & Davis, J.M. February 1994, 216–226
Physiological assessment of speech and voice production of adults with hearing loss. Higgins, M.B., Carney, A.E., & Schulte, L. June 1994, 510–521
Test-retest reliability of the profile of hearing aid performance. Nelson, C.T., & Palmer, C.V. October 1994, 1211–1215

Hearing Aids and Other Prostheses
Early vocal development in tactually aided children with severe-profound hearing loss. Steffens, M.L., Eilers, R.E., Fishman, L., Oller, D.K., & Urbano, R.C. June 1994, 700–711
An investigation of temporary threshold shift caused by hearing aid use. Macrae, J.H. February 1994, 227–237
Prediction of asymptotic threshold shift caused by hearing aid use. Macrae, J.H. December 1994, 1450–1458
Preferred hearing-aid frequency responses in simulated listening environments. Stelmachowicz, P.G., Lewis, D.L., & Carney, E.J. June 1994, 712–716
Speech enhancement based on a sinusoidal model. Kates, J.M. April 1994, 449–464
Test-retest reliability of the profile of hearing aid performance. Nelson, C.T., & Palmer, C.V. October 1994, 1211–1215

LANGUAGE

NATURE OF NORMAL LANGUAGE

Language Development
Acquisition of vowel contrasts in Dutch. Clement, C.J., & Wynen, F. February 1994, 83–89
Children's comprehension and production of derivational suffixes. Windsor, J. April 1994, 408–417
The conceptual basis for morpheme learning problems in children with specific language impairment. Connell, P.J., & Stone, C.A. April 1994, 389–398
Duration of function-word vowels in mothers' speech to young children. Swanson, L.A., & Leonard, L.B. December 1994, 1394–1405
Frequency of input effects on word comprehension of children with specific language impairment. Rice, M.L., Oetting, J.B., Marquis, J., Bode, J., & Pae, S. February 1994, 106–122
Gradual emergence of developmental language disorders. Locke, J.L. June 1994, 608–616
Grammatical morpheme acquisition: Do norms exist?. Lahey, M. October 1994, 1192–1194
Influence of communicative competence on peer preferences in a preschool classroom. Gertner, B.L., Rice, M.L., & Hadley, P.A. August 1994, 913–923
Joint book-reading strategies in working-class African American and white mother-toddler dyads. Anderson-Yockel, J., & Haynes, W.O. June 1994, 583–593
Phrase-final syllable lengthening and intonation in early child speech. Snow, D. August 1994, 831–840
A prospective longitudinal study of language development in late talkers. Ellis Weismer, S., Murray-Branch, J., & Miller, J.F. August 1994, 852–867
Relationships between language and gesture in normal and late-talking toddlers. Thal, D., & Tobias, S. February 1994, 157–170
Syntactic complexity in Spanish narratives: A developmental study. Gutierrez-Clellen, V.F., & Hofstetter, R. June 1994, 645–654

Language Use in Adults
Ability of institutionalized and community-based adults with retardation to respond to questions in an interview context. Brinton, B., & Fujiki, M. April 1994, 369–377
Is there a decline in picture naming with advancing age?. Goulet, P., Ska, B., & Kahn, H.J. June 1994, 629–644
Linguistic performance and regional cerebral blood flow in persons who stutter. Watson, B.C., Freeman, F.J., Devous, M.D., Sr., Chapman, S.B., Finitzo, T., & Pool, K.D. December 1994, 1221–1228

Language Differences and Different Languages
Dialectal forms during discourse of poor, urban, African American preschoolers. Washington, J.A., & Craig, H.K. August 1994, 816–823
Influence of communicative competence on peer preferences in a preschool classroom. Gertner, B.L., Rice, M.L., & Hadley, P.A. August 1994, 913–923
Joint book-reading strategies in working-class African American and white mother-toddler dyads. Anderson-Yockel, J., & Haynes, W.O. June 1994, 583–593
Storytelling in Chippewa-Cree children. Kay-Raining Bird, E., & Vetter, D.K. December 1994, 1354–1368
Syntactic complexity in Spanish narratives: A developmental study. Gutierrez-Clellen, V.F., & Hofstetter, R. June 1994, 645–654

Verbal Learning and Memory
Working memory and inference revision in brain-damaged and normally aging adults. Tompkins, C.A., Bloise, C.G.R., Timko, M.L., & Baumgaertner, A. August 1994, 896–912

LANGUAGE DISORDERS

Aphasia and Other Adult Language Disorders
Is there a decline in picture naming with advancing age?. Goulet, P., Ska, B., & Kahn, H.J. June 1994, 629–644
A measure of the contribution of a gesture to the perception of speech in listeners with aphasia. Records, N.L. October 1994, 1086–1099
Speech sample size and test-retest stability of connected speech measures for adults with aphasia. Brookshire, R.H., & Nicholas, L.E. April 1994, 399–407
Working memory and inference revision in brain-damaged and normally aging adults. Tompkins, C.A., Bloise, C.G.R., Timko, M.L., & Baumgaertner, A. August 1994, 896–912

Language Disorders in Children
Clinical decision making: Describing the decision rules of practicing speech-language pathologists. Records, N.L., & Tomblin, J.B. February 1994, 144–156
Comparison of conversational-recasting and imitative procedures for training grammatical structures in children with specific language impairment. Camarata, S.M., Nelson, K.E., & Camarata, M.N. December 1994, 1414–1423
The conceptual basis for morpheme learning problems in children with specific language impairment. Connell, P.J., & Stone, C.A. April 1994, 389–398
The counting abilities of children with specific language impairment: A comparison of oral and gestural tasks. Fazio, B.B. April 1994, 358–368
The effect of sampling condition on children's productions of consonant clusters. McLeod, S., Hand, L., Rosenthal, J.B., & Hayes, B. August 1994, 868–882
Effects of grammar facilitation on the phonological performance of children with speech and language impairments. Fey, M., Cleave, P., Ravida, A., Long, S., Dejmal, A., & Easton, D. June 1994, 594–607
Frequency of input effects on word comprehension of children with specific language impairment. Rice, M.L., Oetting, J.B., Marquis, J., Bode, J., & Pae, S. February 1994, 106–122

Generalized effects of enhanced milieu teaching. Kaiser, A.P., & Hester, P.P. December 1994, 1320–1340
Gradual emergence of developmental language disorders. Locke, J.L. June 1994, 608–616
Grammatical morpheme acquisition: Do norms exist?. Lahey, M. October 1994, 1192–1194
Influence of communicative competence on peer preferences in a preschool classroom. Gertner, B.L., Rice, M.L., & Hadley, P.A. August 1994, 913–923
Learning and generalization components of morphological acquisition by children with specific language impairment: Is there a functional relation?. Swisher, L., & Snow, D. December 1994, 1406–1413
Limits to a left hemisphere explanation for specific language impairment. Aram, D.M., & Eisele, J.A. August 1994, 824–830
A method for studying the generalized slowing hypothesis in children with specific language impairment. Kail, R. April 1994, 418–421
Oral communication skills of children who are hard of hearing. Elfenbein, J.L., Hardin-Jones, M.A., & Davis, J.M. February 1994, 216–226
Preferences for verb interpretation in children with specific language impairment. Kelly, D.J., & Rice, M.L. February 1994, 182–192
A prospective longitudinal study of language development in late talkers. Ellis Weismer, S., Murray-Branch, J., & Miller, J.F. August 1994, 852–867
Relationships between language and gesture in normal and late-talking toddlers. Thal, D., & Tobias, S. February 1994, 157–170
Social valence in children with specific language impairment during imitation-based and conversation-based language intervention. Haley, K.L., Camarata, S.M., & Nelson, K.E. April 1994, 378–388
Speech perception training can facilitate sound production learning. Rvachew, S. April 1994, 347–357
Subject pronoun and article omissions in the speech of children with specific language impairment: A phonological interpretation. McGregor, K.K., & Leonard, L.B. February 1994, 171–181
A 28-year follow-up of adults with a history of moderate phonological disorder: Educational and occupational results. Felsenfeld, S., Broen, P.A., & McGue, M. December 1994, 1341–1353
Use of Phonological Information in a Word-finding Treatment for Children. McGregor, K.K. December 1994, 1381–1393

Language Disorders in Mental Retardation

Ability of institutionalized and community-based adults with retardation to respond to questions in an interview context. Brinton, B., & Fujiki, M. April 1994, 369–377
Adult-directed communications of youth with mental retardation using the System for Augmenting Language. Romski, M.A., Sevcik, R.A., Robinson, B.F., & Bakeman, R. June 1994, 617–628
Correlates of directiveness in the interactions of fathers and mothers of children with developmental delays. Girolametto, L., & Tannock, R. October 1994, 1178–1191
Effect of adult continuing wh-questions on conversational participation in children with developmental disabilities. Yoder, P.J., Davies, B., Bishop, K., & Munson, L. February 1994, 193–204
Emergence of visual-graphic symbol combinations by youth with moderate or severe mental retardation. Wilkinson, K.M., Romski, M.A., & Sevcik, R.A. August 1994, 883–895
Facilitating prelinguistic communication skills in young children with developmental delay II: Systematic replication and extension. Yoder, P.J., Warren, S.F., Kim, K., & Gazdag, G.E. August 1994, 841–851
Sequential recall in individuals with Down Syndrome. Kay-Raining Bird, E., & Chapman, R.S. December 1994, 1369–1380

Language Disorders in Personality and Psychiatric Disturbances

Language acquisition after mutism: A longitudinal case study of autism. Windsor, J., Doyle, S.S., & Siegel, G.M. February 1994, 96–105

ASSESSMENT AND INTERVENTION

Assessment

Effect of adult continuing wh-questions on conversational participation in children with developmental disabilities. Yoder, P.J., Davies, B., Bishop, K., & Munson, L. February 1994, 193–204
The effect of sampling condition on children's productions of consonant clusters. McLeod, S., Hand, L., Rosenthal, J.B., & Hayes, B. August 1994, 868–882
Grammatical morpheme acquisition: Do norms exist?. Lahey, M. October 1994, 1192–1194
Is there a decline in picture naming with advancing age?. Goulet, P., Ska, B., & Kahn, H.J. June 1994, 629–644
Language acquisition after mutism: A longitudinal case study of autism. Windsor, J., Doyle, S.S., & Siegel, G.M. February 1994, 96–105
The reliability of observational data: I. Theories and methods for speech-language pathology. Cordes, A.K. April 1994, 264–278
Speech sample size and test-retest stability of connected speech measures for adults with aphasia. Brookshire, R.H., & Nicholas, L.E. April 1994, 399–407
Storytelling in Chippewa-Cree children. Kay-Raining Bird, E., & Vetter, D.K. December 1994, 1354–1368
Working memory and inference revision in brain-damaged and normally aging adults. Tompkins, C.A., Bloise, C.G.R., Timko, M.L., & Baumgaertner, A. August 1994, 896–912

Physiological Measures of Language Function

Gradual emergence of developmental language disorders. Locke, J.L. June 1994, 608–616
Linguistic performance and regional cerebral blood flow in persons who stutter. Watson, B.C., Freeman, F.J., Devous, M.D., Sr., Chapman, S.B., Finitzo, T., & Pool, K.D. December 1994, 1221–1228

Intervention

Adult-directed communications of youth with mental retardation using the System for Augmenting Language. Romski, M.A., Sevcik, R.A., Robinson, B.F., & Bakeman, R. June 1994, 617–628
Changes in the generativity and use of semantic relationships concurrent with milieu language intervention. Warren, S.F., Gazdag, G.E., Bambara, L.M., & Jones, H.A. August 1994, 924–934
Comparison of conversational-recasting and imitative procedures for training grammatical structures in children with specific language impairment. Camarata, S.M., Nelson, K.E., & Camarata, M.N. December 1994, 1414–1423
The conceptual basis for morpheme learning problems in children with specific language impairment. Connell, P.J., & Stone, C.A. April 1994, 389–398
Effect of adult continuing wh-questions on conversational participation in children with developmental disabilities. Yoder, P.J., Davies, B., Bishop, K., & Munson, L. February 1994, 193–204
Effects of grammar facilitation on the phonological performance of children with speech and language impairments. Fey, M., Cleave, P., Ravida, A., Long, S., Dejmal, A., & Easton, D. June 1994, 594–607
Facilitating prelinguistic communication skills in young children with developmental delay II: Systematic replication and extension. Yoder, P.J., Warren, S.F., Kim, K., & Gazdag, G.E. August 1994, 841–851
Frequency of input effects on word comprehension of children with specific language impairment. Rice, M.L., Oetting, J.B., Marquis, J., Bode, J., & Pae, S. February 1994, 106–122
Generalized effects of enhanced milieu teaching. Kaiser, A.P., & Hester, P.P. December 1994, 1320–1340
Influence of communicative competence on peer preferences in a preschool classroom. Gertner, B.L., Rice, M.L., & Hadley, P.A. August 1994, 913–923
Language acquisition after mutism: A longitudinal case study of autism. Windsor, J., Doyle, S.S., & Siegel, G.M. February 1994, 96–105
Nonlinear phonology: Introduction and clinical application: Tutorial. Bernhardt, B., & Stoel-Gammon, C. February 1994, 123–143
Social valence in children with specific language impairment during imitation-based and conversation-based language intervention. Haley, K.L., Camarata, S.M., & Nelson, K.E. April 1994, 378–388
Use of phonological information in a word-finding treatment for children. McGregor, K.K. December 1994, 1381–1393

Nonspeech Communication Systems

Adult-directed communications of youth with mental retardation using the System for Augmenting Language. Romski, M.A., Sevcik, R.A., Robinson, B.F., & Bakeman, R. June 1994, 617–628
Emergence of visual-graphic symbol combinations by youth with moderate or severe mental retardation. Wilkinson, K.M., Romski, M.A., & Sevcik, R.A. August 1994, 883–895

A 28-year follow-up of adults with a history of moderate phonological disorder: Educational and occupational results. Felsenfeld, S., Broen, P.A., & McGue, M. December 1994, 1341–1353

Conversation

Ability of institutionalized and community-based adults with retardation to respond to questions in an interview context. Brinton, B., & Fujiki, M. April 1994, 369–377

Information Processing

A method for studying the generalized slowing hypothesis in children with specific language impairment. Kail, R. April 1994, 418–421

Language Disorders in Children with Hearing Losses

Oral communication skills of children who are hard of hearing. Elfenbein, J.L., Hardin-Jones, M.A., & Davis, J.M. February 1994, 216–226

Parent-Child Interaction

Correlates of directiveness in the interactions of fathers and mothers of children with developmental delays. Girolametto, L., & Tannock, R. October 1994, 1178–1191

Phonetics of French Language

Effects of phonetic context on audio-visual intelligibility of French. Benoit, C., Mohamadi, T., & Kandel, S. October 1994, 1195–1203

Phonological Analysis

Nonlinear phonology: Introduction and clinical application: Tutorial. Bernhardt, B., & Stoel-Gammon, C. February 1994, 123–143

Phonological Disorders

Nonlinear phonology: Introduction and clinical application: Tutorial. Bernhardt, B., & Stoel-Gammon, C. February 1994, 123–143

Phonological Disorders in Children

A 28-year follow-up of adults with a history of moderate phonological disorder: Educational and occupational results. Felsenfeld, S., Broen, P.A., & McGue, M. December 1994, 1341–1353

Prelinguistic communication

Facilitating prelinguistic communication skills in young children with developmental delay II: Systematic replication and extension. Yoder, P.J., Warren, S.F., Kim, K., & Gazdag, G.E. August 1994, 841–851

Prognosis

Working memory and inference revision in brain-damaged and normally aging adults. Tompkins, C.A., Bloise, C.G.R., Timko, M.L., & Baumgaertner, A. August 1994, 896–912

Verbal L

Working memory and inference revision in brain-damaged and normally aging adults. Tompkins, C.A., Bloise, C.G.R., Timko, M.L., & Baumgaertner, A. August 1994, 896–912

SPEECH

Nature of Normal Speech

Development of Speech and Voice

Acquisition of vowel contrasts in Dutch. Clement, C.J., & Wynen, F. February 1994, 83–89

Developmental phonological disorders I: A clinical profile. Shriberg, L.D., & Kwiatkowski, J. October 1994, 1100–1126

Developmental phonological disorders II: Short-term speech-sound normalization. Shriberg, L.D., Kwiatkowski, J., & Gruber, F.A. October 1994, 1127–1150

Anatomy and Physiology of the Adult Speech System

Age and velopharyngeal function during speech production. Hoit, J.D., Watson, P.J., Hixon, K.E., McMahon, P., & Johnson, C.L. April 1994, 295–302

Dependence of phonatory effort on hydration level. Verdolini, K., Titze, I.R., & Fennell, A. October 1994, 1001–1007

Evaluation of a reiterant force-impulse task in the tongue. Bunton, K., & Weismer, G. October 1994, 1020–1031

Human perioral muscle activation patterns. Wohlert, A.B., & Goffman, L. October 1994, 1032–1040

Intersyllabic movement timing in the fluent speech of stutterers with different disfluency levels. McClean, M.D., Levandowski, D.R., & Cord, M.T. October 1994, 1060–1066

Levator veli palatini muscle activity in relation to intraoral air pressure variation. Kuehn, D.P., & Moon, J.B. December 1994, 1260–1270

Motor unit territories in the human perioral musculature. Goffman, L., & Smith, A. October 1994, 975–984

A quantitative histologic study of the normal human adult soft palate. Ettema, S.L., & Kuehn, D.P. April 1994, 303–313

Some organizational characteristics of speech movement control. Gracco, V.L. February 1994, 4–27

A structured approach to voice range profile (phonetogram) analysis. Sulter, A.M., Wit, H.P., Schutte, H.K., & Miller, D.G. October 1994, 1076–1085

Variability and consistency in speech breathing during reading: Lung volumes, speech intensity, and linguistic factors. Winkworth, A.L., Davis, P.J., Ellis, E., & Adams, R.D. June 1994, 535–556

Perception of Speech

Acoustic correlates of breathy vocal quality. Hillenbrand, J., Cleveland, R.A., & Erickson, R.L. August 1994, 769–778

Effect of video frame rate on subjects' ability to shadow one of two competing verbal passages. Vitkovitch, M., & Barber, P.J. October 1994, 1204–1210

Effects of phonetic context on audio-visual intelligibility of French. Benoit, C., Mohamadi, T., & Kandel, S. October 1994, 1195–1203

A measure of the contribution of a gesture to the perception of speech in listeners with aphasia. Records, N.L. October 1994, 1086–1099

Perception of coarticulatory cues in the speech of children with profound hearing loss and children with normal hearing. Waldstein, R.S., & Baum, S.R. August 1994, 952–959

Perceptual rankings of speech quality produced with one-way tracheostomy speaking valves. Leder, S.B. December 1994, 1308–1312

Speaker race identification from acoustic cues in the vocal signal. Walton, J.H., & Orlikoff, R.F. August 1994, 738–745

Speech perception training can facilitate sound production learning. Rvachew, S. April 1994, 347–357

Speech and Voice Disorders

Articulation and Resonance Disorders

Articulation testing versus conversational speech sampling: A response to Morrison & Shriberg (1992). Ingram, D. August 1994, 935–936

Comparing abilities of children with profound hearing impairments to learn consonants using electropalatography or traditional aural-oral techniques. Dagenais, P.A., Critz-Crosby, P., Fletcher, S.G., & McCutcheon, M.J. June 1994, 687–699

Developmental phonological disorders I: A clinical profile. Shriberg, L.D., & Kwiatkowski, J. October 1994, 1100–1126

Developmental phonological disorders II: Short-term speech-sound normalization. Shriberg, L.D., Kwiatkowski, J., & Gruber, F.A. October 1994, 1127–1150

Developmental phonological disorders III: Long-term speech-sound normalization. Shriberg, L.D., Gruber, F.A., & Kwiatkowski, J. October 1994, 1151–1177

Effects of grammar facilitation on the phonological performance of children with speech and language impairments. Fey, M., Cleave, P., Ravida, A., Long, S., Dejmal, A., & Easton, D. June 1994, 594–607

Feature analysis of singleton consonant errors in Developmental Verbal Dyspraxia (DVD). Thoonen, G., Maassen, B., Gabreëls, F., & Schreuder, R. December 1994, 1424–1440

Oral communication skills of children who are hard of hearing. Elfenbein, J.L., Hardin-Jones, M.A., & Davis, J.M. February 1994, 216–226

Physiologic deficits in the orofacial system underlying dysarthria in Amyotrophic Lateral Sclerosis. Langmore, S.E., & Lehman, M.E. February 1994, 28–37

Relation between phonologic difficulty and the occurrence of disfluencies in the early stage of stuttering. Throneburg, R.N., Yairi, E., & Paden, E.P. June 1994, 504–509

Response to Ingram letter. Morrison, J.A., & Shriberg, L.D. August 1994, 936–937

Speech perception training can facilitate sound production learning. Rvachew, S. April 1994, 347–357

Physiologically Based Speech Disorders

A critical analysis of speech breathing data from the University of Queensland. Hoit, J.D. June 1994, 572–580

Effects of temporal alterations on speech intelligibility in parkinsonian dysarthria. Hammen, V.L., Yorkston, K.M., & Minifie, F.D. April 1994, 244–253

Evaluation of a reiterant force-impulse task in the tongue. Bunton, K., & Weismer, G. October 1994, 1020–1031

Intelligibility and nonspeech orofacial strength and force control following traumatic brain injury. McHenry, M.A., Minton, J.T., Wilson, R.L., Post, Y.V. December 1994, 1271–1283
Intelligibility and the acoustic characteristics of speech in amyotrophic lateral sclerosis (ALS). Mulligan, M., Carpenter, J., Riddel, J., Delaney, M., Badger, G., Krusinski, P., & Tandan, R. June 1994, 496–503
Intersyllabic movement timing in the fluent speech of stutterers with different disfluency levels. McClean, M.D., Levandowski, D.R., & Cord, M.T. October 1994, 1060–1066
Physiologic deficits in the orofacial system underlying dysarthria in Amyotrophic Lateral Sclerosis. Langmore, S.E., & Lehman, M.E. February 1994, 28–37
Physiological assessment of speech and voice production of adults with hearing loss. Higgins, M.B., Carney, A.E., & Schulte, L. June 1994, 510–521
Speech production during mechanical ventilation in tracheostomized individuals. Hoit, J.D., Shea, S.A., & Banzett, R.B. February 1994, 53–63

Stuttering and Other Fluency Disturbances

Adults who stutter: Responses to cognitive stress. Caruso, A.J., Chodzko-Zajko, W.J., Bidinger, D.A., & Sommers, R.K. August 1994, 746–754
Anxiety levels in persons who stutter: Comments upon the research of Miller and Watson 1992. Craig, A. February 1994, 90–91
Comment on "Interpreting results of the fluent speech paradigm in stuttering research: Difficulties in separating cause from effect." Adams, M.R. August 1994, 813
Comments on Postma and Kolk's "The covert repair hypothesis: Prearticulatory repair processes in normal and stuttered disfluencies" (1993). Wingate, M.E. June 1994, 581
A control/experimental trial of an operant treatment for early stuttering. Onslow, M., Andrews, C., & Lincoln, M. December 1994, 1244–1259
Duration of sound prolongation and sound/syllable repetition in children who stutter: Preliminary observations. Zebrowski, P.M. April 1994, 254–263
Effect of frequency-altered feedback on stuttering frequency at normal and fast speech rates. Hargrave, S., Kalinowski, J., Stuart, A., Armson, J., & Jones, K. December 1994, 1313–1319
Evaluating differences between stuttering and nonstuttering speakers: The group difference design. Young, M.A. June 1994, 522–534
Examination of Adams' positions on the speech production abilities of people who stutter. Armson, J., & Kalinowski, J. August 1994, 813–815
For the record: A response to Armson and Kalinowski's rebuttal. Adams, M.R. August 1994, 815
Interpreting results of the fluent speech paradigm: Difficulties in separating cause from effect. Armson, J., & Kalinowski, J. February 1994, 69–82
Intersyllabic movement timing in the fluent speech of stutterers with different disfluency levels. McClean, M.D., Levandowski, D.R., & Cord, M.T. October 1994, 1060–1066
Linguistic performance and regional cerebral blood flow in persons who stutter. Watson, B.C., Freeman, F.J., Devous, M.D., Sr., Chapman, S.B., Finitzo, T., & Pool, K.D. December 1994, 1221–1228
Long-term results of an intensive therapy program for adults and adolescents who stutter. Boberg, E., & Kully, D. October 1994, 1050–1059
Observation and experimentation: A reply to Gow and Ingham. Onslow, M., van Doorn, J., & Newman, D. April 1994, 345–346
Prolonged speech and modification of stuttering: Perceptual, acoustic, and electroglottographic data. Packman, A., Onslow, M., & van Doorn, J. August 1994, 724–737
Psychophysical analysis of audiovisual judgments of speech naturalness of nonstutterers and stutterers. Schiavetti, N., Martin, R.R., Haroldson, S.K., & Metz, D.E. February 1994, 46–52
Relation between phonologic difficulty and the occurrence of disfluencies in the early stage of stuttering. Throneburg, R.N., Yairi, E., & Paden, E.P. June 1994, 504–509
The reliability of observational data: II. Issues in the identification and measurement of stuttering events. Cordes, A.K., & Ingham, R.J. April 1994, 279–294
Response to Craig. Watson, B.C., & Miller, S. February 1994, 92–95
Speech rates and turn-taking behaviors of children who stutter and their fathers. Kelly, E.M. December 1994, 1284–1294
Stutterers' self-ratings of how natural speech sounds and feels. Finn, P., & Ingham, R.J. April 1994, 326–340
Stuttering and word planning processes: A reply to Wingate. Postma, A., & Kolk, H.H.J. June 1994, 581–582
Stuttering modification and changes in phonation: Observations on findings from recent reports. Gow, M.L., & Ingham, R.J. April 1994, 343–345
Subjective anxiety measurements and cortisol responses in adults who stutter. Blood, G.W., Blood, I.M., Bennett, S., Simpson, K.C., & Susman, E.J. August 1994, 760–768
Temporal dynamics of repetitions during the early stage of childhood stuttering: An acoustic study. Throneburg, R.N., & Yairi, E. October 1994, 1057–1075
Time-interval measurement of stuttering: Effects of interval duration. Cordes, A.K., & Ingham, R.J. August 1994, 779–788
Time-interval measurement of stuttering: Effects of training with highly agreed or poorly agreed exemplars. Cordes, A.K., & Ingham, R.J. December 1994, 1295–1307
Word familiarity, syllabic stress pattern, and stuttering. Hubbard, C.P., & Prins, D. June 1994, 564–571

Voice and Other Laryngeal Disorders

Acoustic correlates of breathy vocal quality. Hillenbrand, J., Cleveland, R.A., & Erickson, R.L. August 1994, 769–778
Aerodynamic and electroglottographic measures of normal voice production: Intrasubject variability within and across sessions. Higgins, M.B., Netsell, R., & Schulte, L. February 1994, 38–45
Analysis of vocal disorders with methods from nonlinear dynamics. Herzel, H., Berry, D., Titze, I.R., & Saleh, M. October 1994, 1008–1019
Communication of lexical tones in Cantonese alaryngeal speech. Ching, T., Williams, R., & Van Hasselt, A. June 1994, 557–563
Consistency and reliability of voice quality ratings for different types of speech fragments. de Krom, G. October 1994, 985–1000
Dependence of phonatory effort on hydration level. Verdolini, K., Titze, I.R., & Fennell, A. October 1994, 1001–1007
Laryngeal airway resistance of older men and women as a function of vocal sound pressure level. Holmes, L.C., Leeper, H.A., & Nicholson, I.R. August 1994, 789–799
Perceptual rankings of speech quality produced with one-way tracheostomy speaking valves. Leder, S.B. December 1994, 1308–1312
Respiratory and laryngeal measures of children and women with bilateral vocal fold nodules. Sapienza, C.M., & Stathopoulos, E.T. December 1994, 1229–1243

ASSESSMENT AND INTERVENTION

Screening

Consistency and reliability of voice quality ratings for different types of speech fragments. de Krom, G. October 1994, 985–1000

Assessment

Anxiety levels in persons who stutter: Comments upon the research of Miller and Watson 1992. Craig, A. February 1994, 90–91
Articulation testing versus conversational speech sampling: A response to Morrison & Shriberg (1992). Ingram, D. August 1994, 935–936
Developmental phonological disorders I: A clinical profile. Shriberg, L.D., & Kwiatkowski, J. October 1994, 1100–1126
Developmental phonological disorders II: Short-term speech-sound normalization. Shriberg, L.D., Kwiatkowski, J., & Gruber, F.A. October 1994, 1127–1150
Developmental phonological disorders III: Long-term speech-sound normalization. Shriberg, L.D., Gruber, F.A., & Kwiatkowski, J. October 1994, 1151–1177
Evaluation of a reiterant force-impulse task in the tongue. Bunton, K., & Weismer, G. October 1994, 1020–1031
Feature analysis of singleton consonant errors in Developmental Verbal Dyspraxia (DVD). Thoonen, G., Maassen, B., Gabreëls, F., & Schreuder, R. December 1994, 1424–1440
Physiologic deficits in the orofacial system underlying dysarthria in Amyotrophic Lateral Sclerosis. Langmore, S.E., & Lehman, M.E. February 1994, 28–37
Psychophysical analysis of audiovisual judgments of speech naturalness of nonstutterers and stutterers. Schiavetti, N., Martin, R.R., Haroldson, S.K., & Metz, D.E. February 1994, 46–52
The reliability of observational data: I. Theories and methods for speech-language

pathology. Cordes, A.K. April 1994, 264–278
Response to Ingram letter. Morrison, J.A., & Shriberg, L.D. August 1994, 936–937
Subjective anxiety measurements and cortisol responses in adults who stutter. Blood, G.W., Blood, I.M., Bennett, S., Simpson, K.C., & Susman, E.J. August 1994, 760–768

Acoustic Measures of Speech and Voice
Acoustic correlates of breathy vocal quality. Hillenbrand, J., Cleveland, R.A., & Erickson, R.L. August 1994, 769–778
Analysis of vocal disorders with methods from nonlinear dynamics. Herzel, H., Berry, D., Titze, I.R., & Saleh, M. October 1994, 1008–1019
Effects of phonetic context on audio-visual intelligibility of French. Benoit, C., Mohamadi, T., & Kandel, S. October 1994, 1195–1203
Evaluation of a reiterant force-impulse task in the tongue. Bunton, K., & Weismer, G. October 1994, 1020–1031
A homomorphic method for measuring secondary amplitude modulation. Qi, Y., & Weinberg, B. August 1994, 800–805
Intelligibility and the acoustic characteristics of speech in amyotrophic lateral sclerosis (ALS). Mulligan, M., Carpenter, J., Riddel, J., Delaney, M., Badger, G., Krusinski, P., & Tandan, R. June 1994, 496–503
Phrase-final syllable lengthening and intonation in early child speech. Snow, D. August 1994, 831–840
A structured approach to voice range profile (phonetogram) analysis. Sulter, A.M., Wit, H.P., Schutte, H.K., & Miller, D.G. October 1994, 1076–1085
Stuttering modification and changes in phonation: Observations on findings from recent reports. Gow, M.L., & Ingham, R.J. April 1994, 343–345
Temporal dynamics of repetitions during the early stage of childhood stuttering: An acoustic study. Throneburg, R.N., & Yairi, E. October 1994, 1067–1075

Intervention
Comparing abilities of children with profound hearing impairments to learn consonants using electropalatography or traditional aural-oral techniques. Dagenais, P.A., Critz-Crosby, P., Fletcher, S.G., & McCutcheon, M.J. June 1994, 687–699
A critical analysis of speech breathing data from the University of Queensland. Hoit, J.D. June 1994, 572–580
Perceptual rankings of speech quality produced with one-way tracheostomy speaking valves. Leder, S.B. December 1994, 1308–1312
Speech perception training can facilitate sound production learning. Rvachew, S. April 1994, 347–357
Stuttering modification and changes in phonation: Observations on findings from recent reports. Gow, M.L., & Ingham, R.J. April 1994, 343–345

Instrumentation for Diagnosis, Treatment, and Research
Acoustic correlates of breathy vocal quality. Hillenbrand, J., Cleveland, R.A., & Erickson, R.L. August 1994, 769–778
Aerodynamic and electroglottographic measures of normal voice production: Intrasubject variability within and across sessions. Higgins, M.B., Netsell, R., & Schulte, L. February 1994, 38–45
Comparing abilities of children with profound hearing impairments to learn consonants using electropalatography or traditional aural-oral techniques. Dagenais, P.A., Critz-Crosby, P., Fletcher, S.G., & McCutcheon, M.J. June 1994, 687–699
A critical analysis of speech breathing data from the University of Queensland. Hoit, J.D. June 1994, 572–580
Effects of temporal alterations on speech intelligibility in parkinsonian dysarthria. Hammen, V.L., Yorkston, K.M., & Minifie, F.D. April 1994, 244–253
Electropalatographic data collected with and without a face mask. Fontdevila, J., Pallares, M.D., & Recasens, D. August 1994, 806–812
Evaluation of a reiterant force-impulse task in the tongue. Bunton, K., & Weismer, G. October 1994, 1020–1031
Physiologic deficits in the orofacial system underlying dysarthria in Amyotrophic Lateral Sclerosis. Langmore, S.E., & Lehman, M.E. February 1994, 28–37
The reliability of observational data: I. Theories and methods for speech-language pathology. Cordes, A.K. April 1994, 264–278
The reliability of observational data: II. Issues in the identification and measurement of stuttering events. Cordes, A.K., & Ingham, R.J. April 1994, 279–294
Speech perception training can facilitate sound production learning. Rvachew, S. April 1994, 347–357
A structured approach to voice range profile (phonetogram) analysis. Sulter, A.M., Wit, H.P., Schutte, H.K., & Miller, D.G. October 1994, 1076–1085
Time-interval measurement of stuttering: Effects of training with highly agreed or poorly agreed exemplars. Cordes, A.K., & Ingham, R.J. December 1994, 1295–1307

Nonspeech Communication Systems
Effects of synthetic voice output on attitudes toward the augmented communicator. Gorenflo, C.W., Gorenflo, D.W., & Santer, S.A. February 1994, 64–68

Aerodynamic Measures of Voice
Relationships between intra-speaker variation in aerodynamic measures of voice production and variation in SPL across repeated recordings. Holmberg, E.B., Hillman, R.E., Perkell, J.S., & Gress, C. June 1994, 484–495

Articulation and Resonance Disorders in Children with Hearing Losses
Oral communication skills of children who are hard of hearing. Elfenbein, J.L., Hardin-Jones, M.A., & Davis, J.M. February 1994, 216–226

Attitudes Toward Persons With Speech Disorders
Reply to Martinez, Bedore, and Ludwig. Bebout, L., & Arthur, B. April 1994, 343

Attitudes Toward Speech Disorders
On cultural sensitivity in assessing cross-cultural attitudes: Comments on Bebout and Arthur (1992). Martinez, A., Bedore, L.M., & Ludwig, J.L. April 1994, 341–342

Lip Reading
Effects of phonetic context on audio-visual intelligibility of French. Benoit, C., Mohamadi, T., & Kandel, S. October 1994, 1195–1203

Phonologic Disorders
Relation between phonologic difficulty and the occurrence of disfluencies in the early stage of stuttering. Throneburg, R.N., Yairi, E., & Paden, E.P. June 1994, 504–509

Swallowing
Mechanisims of recovery of swallow after supraglottic laryngectomy. Logemann, J.A., Gibbons, P., Rademaker, A.W., Pauloski, B.R., Kahrilas, P.J., Bacon, M., Bowman, J., & McCracken, E. October 1994, 965–974
Pharyngeal effects of bolus volume, viscosity, and temperature in patients with dysphagia resulting from neurologic impairment and in normal subjects. Bisch, E.M., Logemann, J.A., Rademaker, A.W., Kahrilas, P.J., & Lazarus, C.L. October 1994, 1041–1049

PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

PROFESSIONAL AFFAIRS

Incidence and Prevalence of Communication Disorders
Developmental phonological disorders I: A clinical profile. Shriberg, L.D., & Kwiatkowski, J. October 1994, 1100–1126
Developmental phonological disorders II: Short-term speech-sound normalization. Shriberg, L.D., Kwiatkowski, J., & Gruber, F.A. October 1994, 1127–1150

Research Issues and Methodology
Consistency and reliability of voice quality ratings for different types of speech fragments. de Krom, G. October 1994, 985–1000
A critical analysis of speech breathing data from the University of Queensland. Hoit, J.D. June 1994, 572–580
Developmental phonological disorders I: A clinical profile. Shriberg, L.D., & Kwiatkowski, J. October 1994, 1100–1126
Developmental phonological disorders II: Short-term speech-sound normalization. Shriberg, L.D., Kwiatkowski, J., & Gruber, F.A. October 1994, 1127–1150
Developmental phonological disorders III: Long-term speech-sound normalization. Shriberg, L.D., Gruber, F.A., & Kwiatkowski, J. October 1994, 1151–1177
Evaluating differences between stuttering and nonstuttering speakers: The group difference design. Young, M.A. June 1994, 522–534
Inferential statistics and treatment efficacy studies in communication disorders. Attanasio, J.S. August 1994, 755–759
Is there a decline in picture naming with advancing age?. Goulet, P., Ska, B., & Kahn, H.J. June 1994, 629–644
On cultural sensitivity in assessing cross-cultural attitudes: Comments on Bebout

and Arthur (1992). Martinez, A., Bedore, L.M., & Ludwig, J.L. April 1994, 341–342
Oropharyngeal swallow efficiency as a representative measure of swallowing function. Rademaker, A.W., Pauloski, B.R., Logemann, J.A., & Shanahan, T.K. April 1994, 314–325
The reliability of observational data: I. Theories and methods for speech-language pathology. Cordes, A.K. April 1994, 264–278
The reliability of observational data: II. Issues in the identification and measurement of stuttering events. Cordes, A.K., & Ingham, R.J. April 1994, 279–294
Response to Ingram letter. Morrison, J.A., & Shriberg, L.D. August 1994, 936–937
Stuttering modification and changes in phonation: Observations on findings from recent reports. Gow, M.L., & Ingham, R.J. April 1994, 343–345
Time-interval measurement of stuttering: Effects of interval duration. Cordes, A.K., & Ingham, R.J. August 1994, 779–788
Time-interval measurement of stuttering: Effects of training with highly agreed or poorly agreed exemplars. Cordes, A.K., & Ingham, R.J. December 1994, 1295–1307

Interdisciplinary Concerns

Correlates of directiveness in the interactions of fathers and mothers of children with developmental delays. Girolametto, L., & Tannock, R. October 1994, 1178–1191

TITLE INDEX

Ability of institutionalized and community-based adults with retardation to respond to questions in an interview context. Brinton, B., & Fujiki, M. April 1994, 369–377
Acoustic correlates of breathy vocal quality. Hillenbrand, J., Cleveland, R.A., & Erickson, R.L. August 1994, 769–778
Acquisition of vowel contrasts in Dutch. Clement, C.J., & Wynen, F. February 1994, 83–89
Adult-directed communications of youth with mental retardation using the System for Augmenting Language. Romski, M.A., Sevcik, R.A., Robinson, B.F., & Bakeman, R. June 1994, 617–628
Adults who stutter: Responses to cognitive stress. Caruso, A.J., Chodzko-Zajko, W.J., Bidinger, D.A., & Sommers, R.K. August 1994, 746–754
Aerodynamic and electroglottographic measures of normal voice production: Intrasubject variability within and across sessions. Higgins, M.B., Netsell, R., & Schulte, L. February 1994, 38–45
Age and velopharyngeal function during speech production. Hoit, J.D., Watson, P.J., Hixon, K.E., McMahon, P., & Johnson, C.L. April 1994, 295–302
Age effects on measures of auditory duration discrimination. Fitzgibbons, P.J., & Gordon-Salant, S. June 1994, 662–670
Analysis of vocal disorders with methods from nonlinear dynamics. Herzel, H., Berry, D., Titze, I.R., & Saleh, M. October 1994, 1008–1019
Anxiety levels in persons who stutter: Comments upon the research of Miller and Watson 1992. Craig, A. February 1994, 90–91
Articulation testing versus conversational speech sampling: A response to Morrison & Shriberg (1992). Ingram, D. August 1994, 935–936
Binaural cues and consonant perception in reverberation and noise. Helfer, K.S. April 1994, 429–438
Changes in the generativity and use of semantic relationships concurrent with milieu language intervention. Warren, S.F., Gazdag, G.E., Bambara, L.M., & Jones, H.A. August 1994, 924–934
Children's comprehension and production of derivational suffixes. Windsor, J. April 1994, 408–417
Clinical decision making: Describing the decision rules of practicing speech-language pathologists. Records, N.L., & Tomblin, J.B. February 1994, 144–156
Comment on "Interpreting results of the fluent speech paradigm in stuttering research: Difficulties in separating cause from effect." Adams, M.R. August 1994, 813
Comments on Postma and Kolk's "The covert repair hypothesis: Prearticulatory repair processes in normal and stuttered disfluencies" (1993). Wingate, M.E. June 1994, 581
Communication of lexical tones in Cantonese alaryngeal speech. Ching, T., Williams, R., & Van Hasselt, A. June 1994, 557–563
Comparing abilities of children with profound hearing impairments to learn consonants using electropalatography or traditional aural-oral techniques. Dagenais, P.A., Critz-Crosby, P., Fletcher, S.G., & McCutcheon, M.J. June 1994, 687–699
Comparison of conversational-recasting and imitative procedures for training grammatical structures in children with specific language impairment. Camarata, S.M., Nelson, K.E., & Camarata, M.N. December 1994, 1414–1423
The conceptual basis for morpheme learning problems in children with specific language impairment. Connell, P.J., & Stone, C.A. April 1994, 389–398
Consistency and reliability of voice quality ratings for different types of speech fragments. de Krom, G. October 1994, 985–1000
A control/experimental trial of an operant treatment for early stuttering. Onslow, M., Andrews, C., & Lincoln, M. December 1994, 1244–1259
Correlates of directiveness in the interactions of fathers and mothers of children with developmental delays. Girolametto, L., & Tannock, R. October 1994, 1178–1191
The counting abilities of children with specific language impairment: A comparison of oral and gestural tasks. Fazio, B.B. April 1994, 358–368
A critical analysis of speech breathing data from the University of Queensland. Hoit, J.D. June 1994, 572–580
Dependence of phonatory effort on hydration level. Verdolini, K., Titze, I.R., & Fennell, A. October 1994, 1001–1007
Developmental phonological disorders I: A clinical profile. Shriberg, L.D., & Kwiatkowski, J. October 1994, 1100–1126
Developmental phonological disorders II: Short-term speech-sound normalization. Shriberg, L.D., Kwiatkowski, J., & Gruber, F.A. October 1994, 1127–1150
Developmental phonological disorders III: Long-term speech-sound normalization. Shriberg, L.D., Gruber, F.A., & Kwiatkowski, J. October 1994, 1151–1177
Dialectal forms during discourse of poor, urban, African American preschoolers. Washington, J.A., & Craig, H.K. August 1994, 816–823
Duration of function-word vowels in mothers' speech to young children. Swanson, L.A., & Leonard, L.B. December 1994, 1394–1405
Duration of sound prolongation and sound/syllable repetition in children who stutter: Preliminary observations. Zebrowski, P.M. April 1994, 254–263
Early vocal development in tactually aided children with severe-profound hearing loss. Steffens, M.L., Eilers, R.E., Fishman, L., Oller, D.K., & Urbano, R.C. June 1994, 700–711
Effect of adult continuing wh-questions on conversational participation in children with developmental disabilities. Yoder, P.J., Davies, B., Bishop, K., & Munson, L. February 1994, 193–204
Effect of frequency-altered feedback on stuttering frequency at normal and fast speech rates. Hargrave, S., Kalinowski, J., Stuart, A., Armson, J., & Jones, K. December 1994, 1313–1319
Effect of high-pass filtering on the neonatal auditory brainstem response to air- and bone-conducted clicks. Stuart, A., & Yang, E.Y. April 1994, 475–479
The effect of noise spectrum on speech recognition performance-intensity functions. Studebaker, G.A., Taylor, R., & Sherbecoe, R.L. April 1994, 439–448
Effect of otitis media with effusion on comodulation masking release in children. Hall, J.W., & Grose, J.H. December 1994, 1441–1449
The effect of sampling condition on children's productions of consonant clusters. McLeod, S., Hand, L., Rosenthal, J.B., & Hayes, B. August 1994, 868–882
Effect of video frame rate on subjects' ability to shadow one of two competing verbal passages. Vitkovitch, M., & Barber, P.J. October 1994, 1204–1210
Effects of grammar facilitation on the phonological performance of children with speech and language impairments. Fey, M., Cleave, P., Ravida, A., Long, S., Dejmal, A., & Easton, D. June 1994, 594–607
Effects of phonetic context on audio-visual intelligibility of French. Benoit, C., Mohamadi, T., & Kandel, S. October 1994, 1195–1203
Effects of synthetic voice output on attitudes toward the augmented communicator. Gorenflo, C.W., Gorenflo, D.W., & Santer, S.A. February 1994, 64–68
Effects of temporal alterations on speech intelligibility in parkinsonian dysarthria. Hammen, V.L., Yorkston, K.M., & Minifie, F.D. April 1994, 244–253
Electropalatographic data collected with and without a face mask. Fontdevila, J., Pallares, M.D., & Recasens, D. August 1994, 806–812

Emergence of visual-graphic symbol combinations by youth with moderate or severe mental retardation. Wilkinson, K.M., Romski, M.A., & Sevcik, R.A. August 1994, 883–895

Evaluating differences between stuttering and nonstuttering speakers: The group difference design. Young, M.A. June 1994, 522–534

Evaluation of a reiterant force-impulse task in the tongue. Bunton, K., & Weismer, G. October 1994, 1020–1031

Examination of Adams' positions on the speech production abilities of people who stutter. Armson, J., & Kalinowski, J. August 1994, 813–815

Facilitating prelinguistic communication skills in young children with developmental delay II: Systematic replication and extension. Yoder, P.J., Warren, S.F., Kim, K., & Gazdag, G.E. August 1994, 841–851

Factors associated with individual differences in clinical measures of speech recognition among the elderly. Humes, L.E., Watson, B.U., Christensen, L.A., Cokely, G.G., Halling, D.C., & Lee, L. April 1994, 465–474

Feature analysis of singleton consonant errors in Developmental Verbal Dyspraxia (DVD). Thoonen, G., Maassen, B., Gabreëls, F., & Schreuder, R. December 1994, 1424–1440

For the record: A response to Armson and Kalinowski's rebuttal. Adams, M.R. August 1994, 815

Frequency of input effects on word comprehension of children with specific language impairment. Rice, M.L., Oetting, J.B., Marquis, J., Bode, J., & Pae, S. February 1994, 106–122

Generalized effects of enhanced milieu teaching. Kaiser, A.P., & Hester, P.P. December 1994, 1320–1340

Gradual emergence of developmental language disorders. Locke, J.L. June 1994, 608–616

Grammatical morpheme acquisition: Do norms exist?. Lahey, M. October 1994, 1192–1194

A homomorphic method for measuring secondary amplitude modulation. Qi, Y., & Weinberg, B. August 1994, 800–805

Human perioral muscle activation patterns. Wohlert, A.B., & Goffman, L. October 1994, 1032–1040

Inferential statistics and treatment efficacy studies in communication disorders. Attanasio, J.S. August 1994, 755–759

Influence of communicative competence on peer preferences in a preschool classroom. Gertner, B.L., Rice, M.L., & Hadley, P.A. August 1994, 913–923

Intelligibility and nonspeech orofacial strength and force control following traumatic brain injury. McHenry, M.A., Minton, J.T., Wilson, R.L., Post, Y.V. December 1994, 1271–1283

Intelligibility and the acoustic characteristics of speech in amyotrophic lateral sclerosis (ALS). Mulligan, M., Carpenter, J., Riddel, J., Delaney, M., Badger, G., Krusinski, P., & Tandan, R. June 1994, 496–503

Interpreting results of the fluent speech paradigm: Difficulties in separating cause from effect. Armson, J., & Kalinowski, J. February 1994, 69–82

Intersyllabic movement timing in the fluent speech of stutterers with different disfluency levels. McClean, M.D., Levandowski, D.R., & Cord, M.T. October 1994, 1060–1066

An investigation of temporary threshold shift caused by hearing aid use. Macrae, J.H. February 1994, 227–237

An investigation of vowel organization in speakers with severe and profound hearing loss. McCaffrey, H.A., & Sussman, H.M. August 1994, 938–951

Is there a decline in picture naming with advancing age?. Goulet, P., Ska, B., & Kahn, H.J. June 1994, 629–644

Joint book-reading strategies in working-class African American and white mother-toddler dyads. Anderson-Yockel, J., & Haynes, W.O. June 1994, 583–593

Language acquisition after mutism: A longitudinal case study of autism. Windsor, J., Doyle, S.S., & Siegel, G.M. February 1994, 96–105

Laryngeal airway resistance of older men and women as a function of vocal sound pressure level. Holmes, L.C., Leeper, H.A., & Nicholson, I.R. August 1994, 789–799

Learning and generalization components of morphological acquisition by children with specific language impairment: Is there a functional relation?. Swisher, L., & Snow, D. December 1994, 1406–1413

Levator veli palatini muscle activity in relation to intraoral air pressure variation. Kuehn, D.P., & Moon, J.B. December 1994, 1260–1270

Limits to a left hemisphere explanation for specific language impairment. Aram, D.M., & Eisele, J.A. August 1994, 824–830

Linguistic performance and regional cerebral blood flow in persons who stutter. Watson, B.C., Freeman, F.J., Devous, M.D., Sr., Chapman, S.B., Finitzo, T., & Pool, K.D. December 1994, 1221–1228

Long-term results of an intensive therapy program for adults and adolescents who stutter. Boberg, E., & Kully, D. October 1994, 1050–1059

Masking level differences for tones and speech in elderly listeners with relatively normal audiograms. Grose, J.H., Poth, E.A., & Peters, R.W. April 1994, 422–428

Masking of speech in young and elderly listeners with hearing loss. Souza, P.E., & Turner, C.W. June 1994, 655–661

A measure of the contribution of a gesture to the perception of speech in listeners with aphasia. Records, N.L. October 1994, 1086–1099

Mechanisims of recovery of swallow after supraglottic laryngectomy. Logemann, J.A., Gibbons, P., Rademaker, A.W., Pauloski, B.R., Kahrilas, P.J., Bacon, M., Bowman, J., & McCracken, E. October 1994, 965–974

A method for studying the generalized slowing hypothesis in children with specific language impairment. Kail, R. April 1994, 418–421

Modulation Detection Interference (MDI) in listeners with cochlear hearing loss. Grose, J.H., & Hall, J.W. III. June 1994, 680–686

Motor unit territories in the human perioral musculature. Goffman, L., & Smith, A. October 1994, 975–984

Nonlinear phonology: Introduction and clinical application: Tutorial. Bernhardt, B., & Stoel-Gammon, C. February 1994, 123–143

Observation and experimentation: A reply to Gow and Ingham. Onslow, M., van Doorn, J., & Newman, D. April 1994, 345–346

On cultural sensitivity in assessing cross-cultural attitudes: Comments on Bebout and Arthur (1992). Martinez, A., Bedore, L.M., & Ludwig, J.L. April 1994, 341–342

Oral communication skills of children who are hard of hearing. Elfenbein, J.L., Hardin-Jones, M.A., & Davis, J.M. February 1994, 216–226

Oropharyngeal swallow efficiency as a representative measure of swallowing function. Rademaker, A.W., Pauloski, B.R., Logemann, J.A., & Shanahan, T.K. April 1994, 314–325

Perception of coarticulatory cues in the speech of children with profound hearing loss and children with normal hearing. Waldstein, R.S., & Baum, S.R. August 1994, 952–959

Perceptual rankings of speech quality produced with one-way tracheostomy speaking valves. Leder, S.B. December 1994, 1308–1312

Pharyngeal effects of bolus volume, viscosity, and temperature in patients with dysphagia resulting from neurologic impairment and in normal subjects. Bisch, E.M., Logemann, J.A., Rademaker, A.W., Kahrilas, P.J., & Lazarus, C.L. October 1994, 1041–1049

The phonological abilities of Cantonese-speaking children with hearing loss. Dodd, B.J., & So, L.K. June 1994, 671–679

Phrase-final syllable lengthening and intonation in early child speech. Snow, D. August 1994, 831–840

Physiologic deficits in the orofacial system underlying dysarthria in Amyotrophic Lateral Sclerosis. Langmore, S.E., & Lehman, M.E. February 1994, 28–37

Physiological assessment of speech and voice production of adults with hearing loss. Higgins, M.B., Carney, A.E., & Schulte, L. June 1994, 510–521

Prediction of asymptotic threshold shift caused by hearing aid use. Macrae, J.H. December 1994, 1450–1458

Preferences for verb interpretation in children with specific language impairment. Kelly, D.J., & Rice, M.L. February 1994, 182–192

Preferred hearing-aid frequency responses in simulated listening environments. Stelmachowicz, P.G., Lewis, D.L., & Carney, E.J. June 1994, 712–716

Prolonged speech and modification of stuttering: Perceptual, acoustic, and electroglottographic data. Packman, A., Onslow, M., & van Doorn, J. August 1994, 724–737

A prospective longitudinal study of language development in late talkers. Ellis Weismer, S., Murray-Branch, J., & Miller, J.F. August 1994, 852–867

Psychometric functions for children's detection of tones in noise. Allen, P., & Wightman, F. February 1994, 205–215

Psychophysical analysis of audiovisual judgments of speech naturalness of nonstut-

terers and stutterers. Schiavetti, N., Martin, R.R., Haroldson, S.K., & Metz, D.E. February 1994, 46–52
A quantitative histologic study of the normal human adult soft palate. Ettema, S.L., & Kuehn, D.P. April 1994, 303–313
Relation between phonologic difficulty and the occurrence of disfluencies in the early stage of stuttering. Throneburg, R.N., Yairi, E., & Paden, E.P. June 1994, 504–509
Relationships between intra-speaker variation in aerodynamic measures of voice production and variation in SPL across repeated recordings. Holmberg, E.B., Hillman, R.E., Perkell, J.S., & Gress, C. June 1994, 484–495
Relationships between language and gesture in normal and late-talking toddlers. Thal, D., & Tobias, S. February 1994, 157–170
The reliability of observational data: I. Theories and methods for speech-language pathology. Cordes, A.K. April 1994, 264–278
The reliability of observational data: II. Issues in the identification and measurement of stuttering events. Cordes, A.K., & Ingham, R.J. April 1994, 279–294
Reply to Martinez, Bedore, and Ludwig. Bebout, L., & Arthur, B. April 1994, 343
Respiratory and laryngeal measures of children and women with bilateral vocal fold nodules. Sapienza, C.M., & Stathopoulos, E.T. December 1994, 1229–1243
Response to Craig. Watson, B.C., & Miller, S. February 1994, 92–95
Response to Ingram letter. Morrison, J.A., & Shriberg, L.D. August 1994, 936–937
Sequential recall in individuals with Down Syndrome. Kay-Raining Bird, E., & Chapman, R.S. December 1994, 1369–1380
Social valence in children with specific language impairment during imitation-based and conversation-based language intervention. Haley, K.L., Camarata, S.M., & Nelson, K.E. April 1994, 378–388
Some organizational characteristics of speech movement control. Gracco, V.L. February 1994, 4–27
Speaker race identification from acoustic cues in the vocal signal. Walton, J.H., & Orlikoff, R.F. August 1994, 738–745
Speech enhancement based on a sinusoidal model. Kates, J.M. April 1994, 449–464
Speech perception training can facilitate sound production learning. Rvachew, S. April 1994, 347–357
Speech production during mechanical ventilation in tracheostomized individuals. Hoit, J.D., Shea, S.A., & Banzett, R.B. February 1994, 53–63
Speech rates and turn-taking behaviors of children who stutter and their fathers. Kelly, E.M. December 1994, 1284–1294
Speech sample size and test-retest stability of connected speech measures for adults with aphasia. Brookshire, R.H., & Nicholas, L.E. April 1994, 399–407
Storytelling in Chippewa-Cree children. Kay-Raining Bird, E., & Vetter, D.K. December 1994, 1354–1368
A structured approach to voice range profile (phonetogram) analysis. Sulter, A.M., Wit, H.P., Schutte, H.K., & Miller, D.G. October 1994, 1076–1085
Stutterers' self-ratings of how natural speech sounds and feels. Finn, P., & Ingham, R.J. April 1994, 326–340
Stuttering and word planning processes: A reply to Wingate. Postma, A., & Kolk, H.H.J. June 1994, 581–582
Stuttering modification and changes in phonation: Observations on findings from recent reports. Gow, M.L., & Ingham, R.J. April 1994, 343–345
Subject pronoun and article omissions in the speech of children with specific language impairment: A phonological interpretation. McGregor, K.K., & Leonard, L.B. February 1994, 171–181
Subjective anxiety measurements and cortisol responses in adults who stutter. Blood, G.W., Blood, I.M., Bennett, S., Simpson, K.C., & Susman, E.J. August 1994, 760–768
Syntactic complexity in Spanish narratives: A developmental study. Gutierrez-Clellen, V.F., & Hofstetter, R. June 1994, 645–654
Temporal dynamics of repetitions during the early stage of childhood stuttering: An acoustic study. Throneburg, R.N., & Yairi, E. October 1994, 1067–1075
Test-retest reliability of the profile of hearing aid performance. Nelson, C.T., & Palmer, C.V. October 1994, 1211–1215
Time-interval measurement of stuttering: Effects of interval duration. Cordes, A.K., & Ingham, R.J. August 1994, 779–788
Time-interval measurement of stuttering: Effects of training with highly agreed or poorly agreed exemplars. Cordes, A.K., & Ingham, R.J. December 1994, 1295–1307
A 28-year follow-up of adults with a history of moderate phonological disorder: Educational and occupational results. Felsenfeld, S., Broen, P.A., & McGue, M. December 1994, 1341–1353
Use of phonological information in a word-finding treatment for children. McGregor, K.K. December 1994, 1381–1393
Variability and consistency in speech breathing during reading: Lung volumes, speech intensity, and linguistic factors. Winkworth, A.L., Davis, P.J., Ellis, E., & Adams, R.D. June 1994, 535–556
Word familiarity, syllabic stress pattern, and stuttering. Hubbard, C.P., & Prins, D. June 1994, 564–571
Working memory and inference revision in brain-damaged and normally aging adults. Tompkins, C.A., Bloise, C.G.R., Timko, M.L., & Baumgaertner, A. August 1994, 896–912
